Mission Statement
Inspiring all learners
to reach their highest
potential as responsible,
productive citizens.

District 1:1 Technology Initiative

Parents and students,

The School District of Osceola County has the distinct opportunity to offer a districtwide 1:1 initiative for the 2021-2022 school year. Students enrolled in SDOC will receive technology equipment that will be checked out to them for **educational uses only**. A borrower’s form will be completed documenting the agreement between the student, family, and school district.

We will be checking out a laptop or iPad, a charger, and a case to each student to use at school and home. The devices for grades 2-12 will be an 11- inch lightweight Dell laptop. The devices for grades K-1 will be an iPad.

The student will need to bring the device to school every day fully charged ready for class. The device will be filtered and monitored during school and home use. Students will be responsible for taking care of all equipment and **returning it in the same condition** in which it was provided. If any equipment is intentionally damaged or lost while it is checked out to a student, they must contact the school and a fee may be issued based on the situation.

Procedures taken if Technology equipment is stolen, damaged, or not returned:

1. If device is broken or stolen, report immediately to school personnel.
2. District will deactivate the device if not returned or stolen.
3. Assess Student Discipline if deemed it was intentionally damaged.
4. Parent will file a police report with the school SRO if device is stolen.
5. If not returned at the end of agreement, SDOC will file a police report.

If you have any questions or need to contact the school district about technology equipment please call us at 407-870-4000.
